

Afridho Nur Zaki

Full Stack Developer | AI Enthusiast | AI Engineer

github.com/dhodo999

dashdho2@gmail.com

PROFESSIONAL SUMMARY

Driven software engineer with a track record of transforming complex concepts into functional, high-performance, and user-focused digital products. Experienced in bridging frontend user interface designs with scalable backend architectures, desktop application developments, and AI integration. Highly skilled in TypeScript/React/Next.js, C#/.NET/WPF, and PHP/Laravel, with a deep passion for optimizing developer workflows, containerized architectures, and on-device machine learning implementations.

COMPETITIONS & ACHIEVEMENTS

Juara 1 (1st Place) — TechnoSprint 2026

Developed Ruang Setara, a gamified web application for learning BISINDO (Indonesian Sign Language) utilizing on-device artificial intelligence. Implemented browser-side hand tracking using MediaPipe Hands and TensorFlow.js, maintaining full user privacy by processing all video frames locally without server transfer.

Semifinalist — Proxocoris 2025

Collaborated in a team of developers to build Airin, a water utility management and customer billing platform. Structured role-based authorization modules, meter reading registries, customer invoices, and reporting dashboards.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern (Periode 2) CV Prabu Bima Tech

Mar 2025 – Jun 2025 | Remote / Onsite

Engineered HerbaTrace, a supply chain traceability and raw material verification system for the Indonesian herbal and pharmaceutical industries. Developed Sobat Obat, a premium AI healthcare advisor for drug interactions and label OCR scanning.

Full-Stack Developer Intern (Periode 1) CV Prabu Bima Tech

Okt 2024 – Jan 2025 | Remote / Onsite

Developed FingerPOS, a Windows desktop application for managing student allowances (uang saku santri) in pesantren and educational organizations. Integrated biometric authentication using the DigitalPersona U.are.U SDK to enable secure and rapid checkout queues. Implemented offline cache layers to queue transactions during connectivity drops, multi-role views, and Excel report compiler using ClosedXML.

Website Maintainer LMS Intermedia (Amikom Purwokerto UKM Intermedia)

2024 – 2025 | Purwokerto, Indonesia (Onsite)

Responsible for the operational maintenance, feature upgrades, and database performance of the internal Learning Management System (LMS). Resolved critical bug logs, monitored server container loads, and improved session caching to ensure zero uptime disruptions for student users.

TECHNICAL SKILLS

Frontend:

React, Next.js, TypeScript, JavaScript (ES6+), WPF (XAML / MVVM), Tailwind CSS, Bootstrap, HTML5, CSS3

Backend & Databases:

Node.js, Express.js, C#, ASP.NET Core, PHP, Laravel, FastAPI, MySQL, PostgreSQL, MongoDB, REST APIs

AI & Developer Tools:

PyTorch, Transformers, TensorFlow.js, MediaPipe, OpenAI API, LangChain, Groq SDK, Docker, Azure, Git, GitHub Actions, Bun, Rsbuild, Vite, Unity Engine

PROFESSIONAL SUMMARY

Saya adalah pengembang perangkat lunak yang senang membangun produk digital dari nol mulai dari merancang antarmuka yang nyaman dipakai, membangun backend yang kuat, hingga mengintegrasikan AI ke dalam aplikasi nyata. Punya pengalaman di berbagai ranah: web fullstack, aplikasi desktop Windows, dan machine learning berbasis on-device. Stack utama saya sehari-hari adalah TypeScript/React/Next.js, C#/.NET/WPF, dan PHP/Laravel, dengan ketertarikan khusus pada containerisasi, optimasi developer workflow, dan implementasi ML langsung di sisi klien.

COMPETITIONS & ACHIEVEMENTS

Juara 1 (1st Place) — TechnoSprint 2026

Mengembangkan Ruang Setara, aplikasi web gamifikasi untuk mempelajari BISINDO (Bahasa Isyarat Indonesia) menggunakan kecerdasan buatan di perangkat. Mengimplementasikan pelacakan tangan berbasis browser menggunakan MediaPipe Hands dan TensorFlow.js, menjaga privasi pengguna sepenuhnya dengan memproses semua frame video secara lokal tanpa pengiriman ke server.

Semifinalist — Proxocoris 2025

Berkolaborasi dalam tim pengembang untuk membangun Airin, platform manajemen utilitas air dan penagihan pelanggan. Merancang modul otorisasi berbasis peran, registri pembacaan meteran, faktur pelanggan, dan dasbor pelaporan.

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern (Periode 2)

CV Prabu Bima Tech

Mengembangkan HerbaTrace, sebuah sistem pelacakan rantai pasokan dan verifikasi bahan baku untuk industri herbal dan farmasi di Indonesia.

Mengembangkan Sobat Obat, sebuah penasihat kesehatan berbasis kecerdasan buatan (AI) kelas premium untuk interaksi obat dan pemindaian OCR label

Mar 2025 – Jun 2025 | Remote / Onsite

Full-Stack Developer Intern (Periode 1)

CV Prabu Bima Tech

Mengembangkan FingerPOS, aplikasi desktop Windows untuk mengelola uang saku santri di pesantren dan lembaga pendidikan. Mengintegrasikan autentikasi biometrik menggunakan DigitalPersona U.are.U SDK untuk memungkinkan antrean kasir yang aman dan cepat. Mengimplementasikan lapisan cache offline untuk mengantrekan transaksi saat terjadi gangguan konektivitas, tampilan multi-peran, dan kompilasi laporan Excel menggunakan ClosedXML.

Okt 2024 – Jan 2025 | Remote / Onsite

Website Maintainer

LMS Intermedia (Amikom Purwokerto UKM Intermedia)

Bertanggung jawab atas pemeliharaan operasional, peningkatan fitur, dan performa basis data pada sistem Learning Management System (LMS) internal. Menyelesaikan log bug kritis, memantau beban kontainer server, dan meningkatkan session caching untuk memastikan nol gangguan uptime bagi pengguna mahasiswa.

2024 – 2025 | Purwokerto, Indonesia (Onsite)
